LED DOWNLIGHT HOLDER USER GUIDE

LED DOWNLIGHT HOLDER USER GUIDE

SAFETY INSTRUCTIONS:

To ensure correct function and safety, please read and follow all instructions carefully before using the product:

- Professional electrician for installation and maintenance only.
- UL/cUL listed for through branch circuit wiring (maximum 8 NO. 12AWG, 90°C conductors).
- All wiring and installation of the light fitting must adhere to local and national wiring rules.
- Read instructions & check you have all the tools & accessories to complete the installation correctly.
- Lay out all the components on a smooth surface and make sure there are no components missing before assembling.
- Product modification and improper installation are not valid for warranty.

Please keep instructions for future reference.

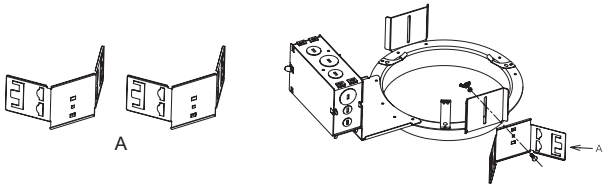

STRUCTURE INTRODUCTION:

- Overall structure is made of galvanized sheet, fire-proof and heat resistant.
- The junction box is detachable for easy wiring.
- 4" 6" 8" 10" are optional.
- 2 sets extended bars provided for the bracket, could be extended and shortened within 13-3/4"- 24".
- There are four 7/8" knockouts with slots for pryout for connection on the junction box. Spare knockouts with slots: Two 1-1/8", another two 9/16" on the left size.
- No.18 AWG ground wire is provided on the bracket.

INSTALLATION DIAGRAM:

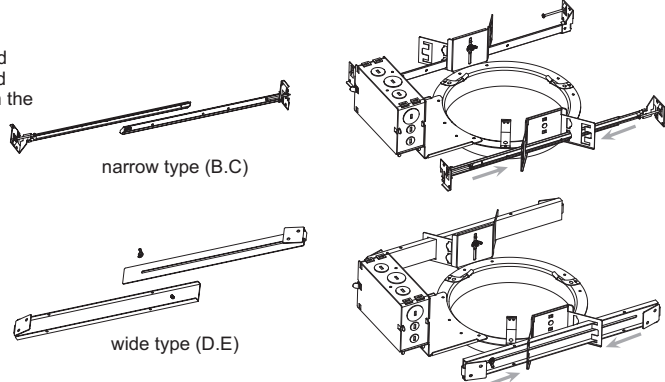

Step 1:

Fix mounting clips (A part) on two sides of the bracket by screw.

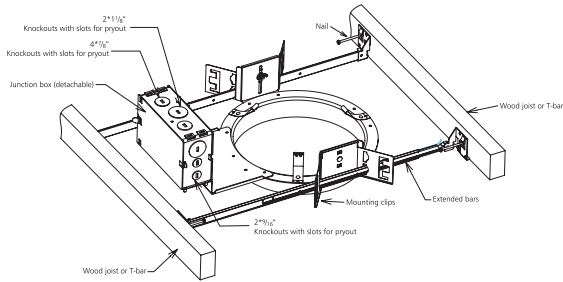

Step 2:

Two types extended bars are optional, narrow type (B.C) and wide type (D.E). Plug extended bars into the mounting clips on the two sides.

Step 3:

Install whole installation kit onto hanging bracket, fix extended bars with nails and adjust bracket position as shown as above digram.
