

# Suspension Kit Installation Instructions

## For 65/706, 65/707

Suspension kits 65/706 for (65/698, 65/699, 65/700)  
Suspension Kit 65/707 for (65/702, 65/703, 65/1702, 65/1703).

Step 1. Install to the ceiling the aircraft cable support using the provided anchors and screws.  
see Fig 1.

Step 2. Install both Snap-on Hooks to the fixture keyed slots. see Fig 2.

Step 3. Connect the Aircraft cable Male connector to the ceiling aircraft support.  
see Fig 3.

Step 4. The cable allows varied adjustment, The "Plunger" see Fig 4. will release the suspension cable when pressed on the top of the connector. This allows for easy adjustment up and down of the light fixture.
