Our latest LED track heads are built to withstand the hard, everyday operation that comes with use in commercial settings while maintaining a consistent look and feel. With options to deliver superior, high lumen LED light, for more challenging venues where taller ceilings, larger spaces and safety are concerns; typically, problematic for lesser fixtures. Their enhanced performance and rugged construction make them perfect for light commercial, retail and hospitality applications. These track heads are constructed to deliver High CRI and R9 values to provide superior light quality for up to 50,000 hours
