SATCO | NUVO

SATCO|NUVO offers a wide variety of track lighting accessories specifically designed to incorporate creativity, quality and total customization of the track lighting systems in your home, office, or business.

TRACK ACCESSORIES

ADAPTERS | CONNECTORS

Track lighting is a versatile way to produce functional, task or accent lighting in any room. With SATCO|NUVO's line of track lighting accessories, you can achieve even more flexibility in your lighting scenes and presentations than ever before.

MONOPOINT ADAPTERS

Available in single, double and triple track head options, monopoint adapters allow any H style track head or pendant fixture (with a track pendant adapter) to be converted to a surface mount installation. With a max weight of 10 lbs. and a max wattage of 100W per socket, numerous lighting combinations can be created, limited only by one's imagination.

TP253	Triple Monopoint Adapter; Rectangular	Black	12
TP254	Triple Monopoint Adapter; Rectangular	White	12

OUTLET TRACK ADAPTERS

Outlet track adapters provide a versatile solution for converting H-track power into a grounded 120V receptacle. Ideal for temporary displays, trade shows, retail environments, and other applications where convenient access to power is needed, these adapters offer flexibility for powering lighting, displays, and other devices directly from the track system. Available in both standard and low-profile designs, they provide options to suit a variety of installation needs while maintaining a clean, professional appearance. A dedicated on/off switch allows users to control power as required.

TP356	Outlet Track Adapter	White	100

SLOPED CEILING TRACK ADAPTERS

Enhance the versatility of H track with sloped ceiling track adapters. An ideal solution for vaulted ceilings or wall mounted track systems, these adapters allow a 360° track head range of motion. These adapters are a perfect choice for retail spaces, museums, or any location where precise lighting control is essential.

TP246	Stem Hung Pendant Track Adapter; Brown Finish	Brown	100

L AND T SHAPED AND LIVE END FEED CONNECTORS (REVERSE POLARITY)

Shaped connectors allow H track to be configured for optimal lighting layouts based on room size and shape. Making a 90° track connection, the L shape joins two pieces of track while the T shaped connector creates a power feed for three track sections. The Live End reverse polarity conduits make it possible to continue power in the track from one spot to another with ease. Detailed instructions are included as it is essential to follow proper track polarity when installing.
