

## 3-Button Wireless Keypad

### Battery-Powered Control for Networked Lighting

The DOMINO™ 3-Button Keypad is a compact, battery-powered interface for wireless control of DOMINO™-enabled lighting devices within a networked lighting control system. It enables basic on/off switching, brightness adjustment via dimming, and direct control of individual devices or groups. Powered by a long-life CR2032 battery, the keypad can be surface-mounted, installed in a standard switch box, or used as a handheld remote. Configured through the DOMINO™ app, it offers flexible, wire-free control for a wide range of commercial applications.

87-501

#### FEATURES

- 3 buttons for on/off and raise/lower dimming functionality
- Screwless faceplate included
- Bluetooth® mesh network for wireless communication
- Direct control- no hub or gateway needed
- Can be wall mounted or used as a remote control
- Powered by a single CR2032 battery
- 5-8 year battery life with normal use
