Split Controlled 20A Wireless Receptacle with Permanent Power and Controlled Receptacle

The DOMINO™ Split Controlled Wireless Receptacle is a Bluetooth®-enabled receptacle designed for automated plug load control in the DOMINO™ networked lighting system. It provides wireless control of the lower outlet while maintaining constant power to the upper outlet, supporting code-compliant load shedding and energy management. Rated for 20A, this controller features a tamper-resistant housing, LED status indicator, and reset functionality. It installs in standard wall boxes and integrates seamlessly into the DOMINO™ system making it ideal for office, education, and commercial applications. This device accepts a standard decorative wall plate.

FEATURES

- Provides a permanent powered and DOMINO controlled outlet
- LED status indicator and Bluetooth® reset button
- Installs in a standard single gang box
- Bluetooth® mesh network for wireless communication
- Direct control- no hub or gateway needed
- Easy commissioning with DOMINO™ App (Available in IOS and Android)

GENERAL SPECIFICATIONS
