SATCO|NUVO's LED Orb track heads are compact, modern fixtures designed to deliver adaptable, controlled illumination. These Orb-shaped heads feature a very contemporary design with a swivel arm and a 355° rotating head for precise aiming. Each track head includes a recessed CCT switch, allowing selection between 3000K, 4000K, and 5000K to accommodate varying lighting requirements, along with two beam spread options—24° and 36°—for targeted or wider light distribution. A low-profile track adapter, compatible with both H-track and J-track systems, maintains a clean, streamlined appearance. Available in white, black, and brushed nickel finishes, the Orb track head integrates seamlessly into contemporary interiors and is well suited for office, hospitality, and residential applications.
